

REMARKS

The Applicants do not believe that entry of the foregoing response will result in the introduction of new matter into the present application for invention. Therefore, the Applicants, respectfully, requests that the above response be, kindly, reconsidered.

The Advisory Action dated July 29, 2005 has been received and considered by the Applicants. Claims 1-20 are pending in the present application for invention. The Advisory Action removed Claim 2 and 3 from the list of rejected claims and placed Claims 2 and on the list of objected to claims that would be allowable in independent form. Therefore, Claims 1, 4-6, 8-14 and 16-20 are rejected and Claims 2, 3 7 and 15 are objected to as being dependent upon a rejected base claim but otherwise stated as being allowable.

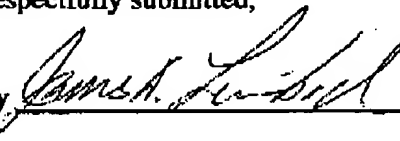

The foregoing amendment to the claims has incorporated the limitations of Claim 2 into Claim 1, the limitations of Claim 7 into Claim 5, and the limitations of Claim 15 into Claim 13. The dependency of Claim 3 has been changed from Claim 2 to Claim 1.

The Applicants, respectfully, submit that the foregoing amendment resolves all outstanding issues with respect to the present application for invention.

Applicant is not aware of any additional patents, publications, or other information not previously submitted to the Patent and Trademark Office which would be required under 37 C.F.R. 1.99.

In view of the foregoing amendment and remarks, the Applicant believes that the present application is in condition for allowance, with such allowance being, respectfully, requested.

Respectfully submitted,

By
